6.2.3.4 The imported cost component (D1) shall be adjusted together with all other cost components at the predetermined adjustment intervals.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

10. Certificate of Independent Bid Determination MBD 9

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a per se prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

- The inclusion of estimated quantities in the tender document serves solely for evaluation and comparative analysis purposes and does not represent a commitment to procure those exact quantities. This approach allows the evaluation committee to fairly assess and compare the pricing structures of different bidders under a uniform baseline, ensuring that all proposals are evaluated on an equal footing. Since the contract is rates-based, the actual quantities procured will depend on operational needs, budget availability, and demand fluctuations over the contract period.

Tenderers must submit prices for the categories they intend to offer. Where a category is not offered, the tenderer must indicate "N/A" or "No Offer". There is no limit to the number of categories a tenderer may tender for.
